

EVRoaming Foundation

Realising cross-border charging

News Flash

The latest news about charging station accessibility, roaming and OCPI

In this issue → London member & visitor event | Meet our EVRoaming Foundation representatives: Laurens Wiersma & Sam Biggs

30 March to 1 April | EVRoaming Foundation and OCPI Meeting for members and guests – London

We're excited to announce our upcoming face-to-face event in London, hosted at [Octopus Electroverse](#), starting on 30 March. Members are also invited to join the dedicated work sessions on 31 March and 1 April.

Join us to gain fresh insights, expand your network, and receive the latest updates from the EVRoaming Foundation and OCPI. Meet fellow OCPI implementers and connect with the OCPI editors in person.

This live event, hosted by Octopus Electroverse, will bring together the EV charging community from across Europe and beyond. Will you be joining us?

You do not need to be a member of the EVRoaming Foundation to attend on 30 March — this day is open to everyone. The sessions on 31 March and 1 April are exclusively for EVRoaming Foundation members. If you become a member before the event, you are welcome to attend these member-only days as well.

[Registration](#) is now open and free of charge.

What to expect

30 March | EVRoaming & OCPI Updates, Networking & Key Topics

Receive an overview of the EVRoaming Foundation's activities and the latest updates on OCPI versions, as well as the testing and certification programme.

In the afternoon, we will engage in interactive discussions on HDV, booking solutions, PKI, secure RFID tokens, and other roaming and charging infrastructure accessibility topics.

We will close the day with networking drinks — the perfect opportunity to connect with peers in an informal setting.

31 March & 1 April | EVRoaming Foundation Member Work Sessions

These sessions are dedicated to in-depth discussions on topics such as:

- Migration between OCPI versions
- Handling V2G tariffs in OCPI
- Subscription models
- OCPI extensibility
- Simplifying tariff implementation
- Managing idle fees

On 31 March, we will conclude the day with an optional group dinner.

On 1 April, the event will finish around noon.

Active in Asia, Australia or New Zealand?

Meet our EVRoaming Foundation representatives: Laurens Wiersma & Sam Biggs

Laurens Wiersma

Laurens Wiersma is an entrepreneur, project manager, and sustainability consultant with extensive international experience in e-mobility.

As Regional Manager Asia-Pacific at the EVRoaming Foundation, he supports the adoption of open EV roaming standards across the region. He fosters collaboration around OCPI, interoperability, charging tariff transparency, and related initiatives such as test and certification development.

With an impact-driven and hands-on approach to partnerships, Laurens connects organisations, communities, and technology to accelerate scalable and accessible EV charging infrastructure throughout the Asia-Pacific region.

If you would like to connect with Laurens to explore collaboration opportunities or learn more about our initiatives in Asia-Pacific, feel free to contact him at:

laurens.wiersma@evroaming.org

Sam Biggs

Sam Biggs is an EV charging and roaming specialist with experience across Europe and Australia.

He began working in EV charging during the early European market rollout, gaining hands-on experience with OCPI and OCPP platforms, fleet and bus charging, and large-scale charging infrastructure.

Sam has led projects across software, hardware, operations, and delivery, with a strong focus on commercial fleets, buses, and grid-constrained sites. He has built local market partner networks and worked closely with utilities, charge point operators, and technology providers.

Sam is primarily active in Australia and New Zealand. You can reach him at:

sbiggs@mevcai.com

Join a workgroup

If you want to join the workgroups for Logistics (HDV Booking), OCPI development or other activities, please join the EVRoaming Foundation.
